01 Profile

Full-stack developer on .NET (ABP Framework) and Angular, working remotely from Secunda. I specialise in AI harnesses: setting up Claude Code so coding agents follow a team's standards, and measuring whether they do. In my own time I build developer tooling for coding agents and make games in Godot.

02 Experience

Junior Full-Stack Software Developer *Software company (remote)*

SEP 2025 – PRESENT / REMOTE

- Build and maintain enterprise software on .NET (ABP Framework) and Angular as part of a product team.
- Set up the team's Claude Code development environment for a new project: CLAUDE.md files and skills that the whole team uses.

Intermediate Full-Stack Software Developer *EziDev*

JAN 2025 – APR 2025 / SEDGEFIELD, WESTERN CAPE

- Built the front end for a payment aggregation platform.
- Built landing pages and interactive experiences, working with Next.js, C#, SQL and Docker.

Freelance Graphic Designer *Self-employed*

JAN 2022 – SEP 2023 / POTCHEFSTROOM, NORTH-WEST

- Designed multimedia packages and websites for clients part-time while studying, and learnt SEO and social media management.

Computer Hardware Technician *Techish*

JAN 2020 – APR 2020 / SECUNDA, MPUMALANGA

- Gave remote IT support with AnyDesk and TeamViewer, and repaired hardware and software faults on site and remotely.
- Maintained and upgraded client hardware.

Intern Web Developer *DYOPTRI*

NOV 2017 – JAN 2018 / SECUNDA, MPUMALANGA

- Designed and maintained client websites in WordPress: landing pages, dashboards and e-commerce pages.

03 Selected projects

Directorate Harness

CLAUDE CODE HARNESS AND PLUGINS

A bootloader for Claude Code on Windows: one command gives a solo agent and an orchestrated team the same tools, defaults and skills. Three plugins, each with its context cost measured (162, 945 and 312 tokens); one default alone cut a sample command output by 31%.

The Directorate

AGENT ORCHESTRATION

A Director session breaks instructions into tasks and runs autonomous Claude Code sessions, each in its own disposable git worktree. Approved work is fetched without touching the developer's branch or uncommitted changes.

pwsh-axi

AGENT TOOLING

A Windows diagnostics CLI for coding agents, with token-efficient output, honest exit codes and idempotent changes. 87 tests, CI on Node 20 and 22.

Game development

GODOT 4, GDSCRIPT

Nuke France, released on itch.io for Windows, Mac and the browser. Load Shedding, a power-grid sim in development, balanced with seeded headless bot runs. The Paracelsian, a proof of concept with 53 automated tests and an ML matting pipeline for period art.

Share2Teach

FINAL-YEAR GROUP PROJECT, 2024

An open educational resource platform for North-West University. I led the team as team lead, Scrum Master and head designer. Next.js, TypeScript, MongoDB, Auth0, Google Cloud Storage and Docker.

Earlier university projects

2023 – 2024

A desktop chat app (Tauri, Rust, React, Firebase) that I led to 95% for Networks; a C# text-messaging app; a cinema point-of-sale app in C# and SQL Server; and an Airbnb data analysis in Python with PostGIS.

04 Skills

LANGUAGES	C#, TypeScript, JavaScript, Python, SQL, GDScript, PowerShell, HTML and CSS
FRAMEWORKS	.NET with ABP Framework, Angular, React, Next.js, Node.js, Tailwind CSS
AI TOOLING	Claude Code: harnesses, hooks, plugins, skills and multi-agent orchestration
DATA AND TOOLS	SQL Server, PostgreSQL with PostGIS, MongoDB, Firebase, Docker, Git, GitHub Actions
GAMES	Godot 4, Unity, Unreal Engine, Blender scripting

05 Education

BSc Information Technology *North-West University, Potchefstroom*

2021 – 2024 / AVERAGE 64%

Modules include Data Structures and Algorithms, Object Oriented Programming, Advanced Databases, Information Security, Operating Systems, System Analysis and Design, User Interface Programming, Data Analytics.

National Senior Certificate *Hoërskool Oosterland, Secunda*

2014 – 2018 / AVERAGE 62%

Information Technology, Computer Applications Technology, Engineering Graphics and Design, Mathematics and Physical Science. Public speaking, debate and chess.

06 Writing

The Lazy Optimizer: Why We Need to Stop Calling AI "Intelligent", LinkedIn, August 2026.

07 Languages

English and Afrikaans (native), Dutch (basic, A2).
